

How to create a sQuid account

Register online and top up your account

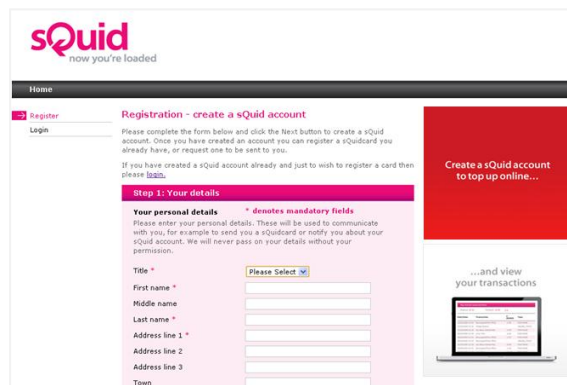

01 Register with sQuid

Go to squidcard.com/schooltrips and click on the **'Click here to register'** button. You will then be re-directed through to the sQuid portal where you can register and login to your account.

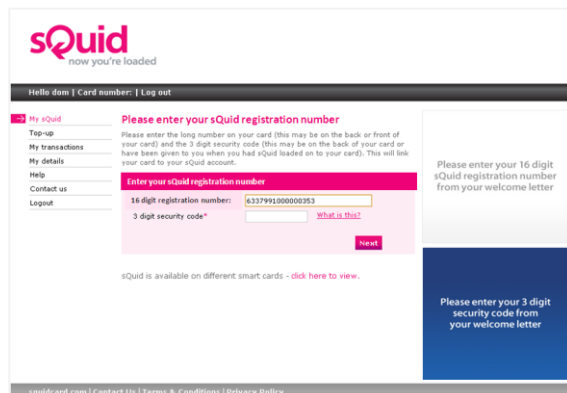

02 Create a sQuid account

Firstly you need to create an account with sQuid. You will need to give some personal details, create a Username and Password and your own personal Security question and Answer. You will be sent an email to your given email address confirming all of these details except for your Password, which is known only to you. Keep this safe.

03 Your sQuid Registration Number

Having created an account you will be prompted to register your unique sQuid Registration Number, linking it to your sQuid account. This is the 16 digit number and 3 digit security code shown on the front of your welcome letter.

04 Purchase a school trip or offer

Once you have logged into your account you can view all available trips & offers by clicking on the orange **'School Trips & Offers'** image. Simply select the school trip or offer that you wish to purchase from the list, make payment using a credit or debit card and confirm the purchase. Alternatively you can pre-load the account using a bank transfer before making the payment. Once payment is confirmed, you will be sent a receipt to your given email address.
